

# Osage Point Vision

Osage Point Townhomes will be the most aggressive single family residential construction project in Fairfield Bay in more than 25 years!

Osage Point Townhomes will be a 20 unit townhome development consisting of 10 buildings with 2 units per building!

Osage Point, with a stunning panoramic view of eastern Greers Ferry Lake, looks down from a height of up to 1150 feet!

Osage Point Townhomes offer a panoramic view from the kitchen, living room, master bedroom, dining room, loft, patio, and even the front entry!

The Osage Point open floor plan has 1506 square feet of main level living space, ADA assessable and 510 square feet of bedroom loft, conditioned storage space on the second level! Base unit: 3Br, 2 Baths.

Osage Point Townhomes are functionally designed with features that include dramatic high sloping ceilings, large windows, floor coverings of hardwood, ceramic tile, carpet, and granite countertops!

Osage Point offers a feature not known to be offered anywhere else in our area. This would be the "Toy House". A large optional disconnected garage to accommodate the "toys" of your life.
